Old Rhinebeck Aerodrome

Intrepid Sea, Air & Space Museum

Cradle of Aviation Museum

American Airpower Museum

Flying from one place to another now is as commonplace as walking, but that was not always the case. It was just a little more than 100 years ago that man conquered the skies and the world became a bigger place. Travelers can be across the country in a couple of hours and around the world in less than a day. New York State is proud to be home to the men and women who made the earliest forays into the freedom of flight.
